DESIGN YOUR KITCHEN NOW IN 4 SIMPLE STEPS

1. Measure the space in your house.

2. Book an appointment: a custom design for you.

Before booking a time with our professionals, make sure to measure the space your kitchen will occupy. This will help us determine the best layout.

A custom design is the key to maximising your budget and getting the most out of your kitchen. You will also be able to view it in 3D before it is built.

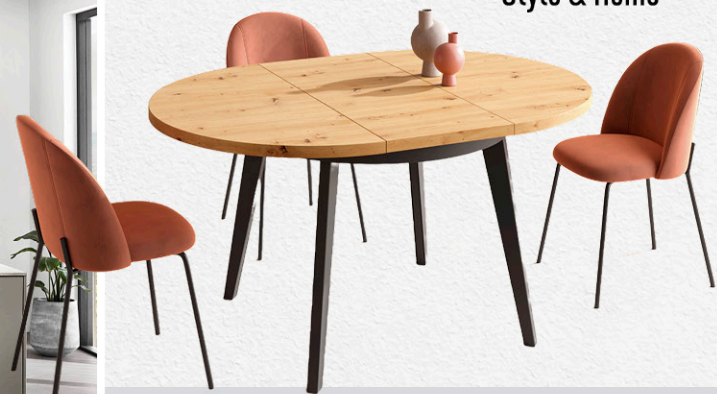

3. Professionals measure the space.

4. Delivery and professional installation guaranteed.

Having experts measure the space is a critical phase in ensuring that everything we include in the design will fit into your WOW kitchen.

We schedule the best time to install your kitchen. Your kitchen will be assembled by professionals to ensure that WOW look.

COMPREHENSIVE SOLUTIONS FOR YOUR KITCHEN

1. ONE-WALL KITCHEN

The simplest option: all cabinetry and countertops on one wall. The most used option for narrow kitchens. Makes good use of the available space.

2. L-SHAPED KITCHEN

A kitchen with two walls meeting in a corner. The ideal layout for small kitchens, as it frees up one wall. A frequently used option.

3. U-SHAPED KITCHEN

A kitchen with three sides joined by corner modules. Helps you get the most out of the space. Allows more than one person to work in the kitchen at the same time.

4. KITCHEN ISLAND

Recommended for large, square spaces. The island serves as an additional workspace. Lots more storage.

5. GALLEY KITCHEN

A kitchen with services on opposite sides. Helps make better use of the space in long kitchens. The two sides must be at least 120 cm apart.

CHOOSING YOUR KITCHEN: THE COLOURS

The choice of colours in a kitchen is fundamental. Base your colour scheme on how much time you plan to spend there. Avoid creating a closed-in feeling or visual strain.

WARM COLOURS
Oranges, reds and yellows are eye-catching, but may prove tiresome. Bear that in mind.

COOL COLOURS
Cool colours (greens, blues, greys, white...) will turn your kitchen into a place of relaxation and wellbeing.

**LIGHT VS
DARK COLOURS**
Light colours increase the sense of space, while dark colours reduce it, yet add a unique touch of style.
You decide!

CHOOSING YOUR KITCHEN: STORAGE

It is essential that you furnish your kitchen with elements that provide easy access to all accessories, utensils and food and allow you to keep them organised.

LARGE DRAWERS WITH COMPARTMENTS, REMOVABLE TRAYS, BARS FOR HANGING UTENSILS, REVOLVING SHELVES...

A WOW kitchen, down to the very last detail

CHOOSING YOUR KITCHEN: THE OFFICE AREA

Although your kitchen isn't overly large, you can still have an office area for breakfasts, lunches and informal dinners. Another possibility is to create an office area by extending the countertop.
