WOW

Style & Home **Tips**

For finding the ideal sofa

1. SIZE

- Measure the available space (width and length).
- If you want a chaise longue... make sure you choose the right side.
- Stretch your legs... with a chaise longue sofa equipped with sliding seats.

**2. DETAILS**

- Hours and hours on the sofa? Choose one with high-density and high-quality foam.
- Choose a sofa bed if you like having guests at home.

- If you are short on space and need storage solutions, find a sofa with a storage compartment.

- Kids at home? You may want to pick a dark model with stain resistant fabric.

**3. STYLE**

- Choose vibrant colours or prints to make it a feature or a neutral colour if your living room is already colourful.

- Leather or cloth? You decide the upholstery. Leather, easier to clean; cloth, warmer when it's cold.

HOW DO I CHOOSE THE RIGHT MATTRESS?

01. SIZE

• Your mattress should be at least **10 cm longer** than you.

• If you sleep alone, pick a 90 or 105 cm wide mattress. Otherwise, choose one that is 150 or 160 cm wide.

• Sleep like a king in a **king size bed** (200x200 cm)

02. COLD vs. HOT

• **Spring mattress.** Stays cooler and is more breathable.

• **Foam mattress.** Retains heat better.

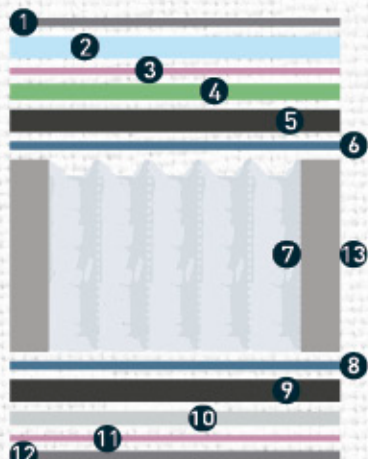

03. FIRMNESS

• **Soft mattress.** If you are a side sleeper and are quite light.

• **Firm mattress.** If you are a back sleeper and move around at night.

WOW *Tips*

A MATTRESS FOR CHILDREN. HOW TO CHOOSE?

01. AGE

- **Until the age of 2** you should choose a firm but comfortable mattress: at this age, they spend a lot of time sleeping.
- **From age 3 to 10**, choose a firm mattress that supports their back (they are growing). Bear in mind the child's weight: heavier = firmer.
- **After the age of 11** the best option is a very firm mattress, which adapts well to their growth at this age.

02. OTHER FACTORS

- **Size.** There is no need for it to be as thick as an adult mattress. A depth of 12 to 18 cm is enough.
- **Materials.** Hypo-allergenic mattresses are best; allergies can appear at any time.
- **Breathability.** It is important to choose a mattress with a good ventilation system.

WOW Tips Style & Home

HOW DO I CHOOSE A BED BASE?

ADJUSTABLE BASE

- Manual or electric, for automatic and simple movement.
- This option is **highly ergonomic and provides better care** as you can adjust its position to suit all situations.

SLATTED

- The simplest form of support. **Flexible, medium firm and comfortable.**
- Its raised structure makes it easy to clean under the bed and prevent dust from accumulating.
- The slats help ventilate the mattress, making it ideal for damp areas.

LIFT-UP

- Take full advantage of the space with the storage possibilities of a lift-up base.
- Get an **even firmer night's sleep** thanks to a lift-up base's uniform surface.

UPHOLSTERED BASE

- A great choice to lend **stability to your spring mattress**, thanks to its uniform surface.
- Easy to clean, due to its raised structure and space between legs.
- Its wrap-around upholstery will help make your bed even more elegant and robust.

Tips

HOW DO I CHOOSE A PILLOW?

01. YOUR SLEEPING POSITION

- When choosing, bear in mind how you sleep at night.
- If you are a **back sleeper**, choose a medium firm, mid-loft pillow that adapts to the natural shape of your neck.
- For **side sleepers**, the best option is a firm, high-loft pillow that supports your neck and aligns your spine.
- Although **sleeping on your front** is not a great idea, a soft, narrow pillow will help cradle your neck.

02. MATERIALS

- **Synthetic fibres and down** are soft, flexible materials, ideal for people who sleep on their front.

- Thanks to their memory system, which adapts to all changes, **latex and foam** are great for people who toss and turn.

03. SHAPE

- **Traditional**. The best, for people who don't need special care.

- **Butterfly**. Narrower in the middle and wider at the sides, it helps relieve upper and middle back pain.

- **Upper back**. Another option that will help with upper back pain, thanks to its ergonomic shape.
